You think that you know my heart
And you probably do
So I'm always with you

I could stay with you for hours
In an empty room
And never get bored
Never have nothing to do

You're my other half
You're what makes me me
What makes me smile
When I fall down and can't get back, get back, get back up
On my feet

Without you here I am boring
Something inside you is triggering
It makes me myself
Makes me funny, you're a beautiful thing

We're a beautiful thing together
Even when the weather is low
You're a beautiful thing |1 |3d |
We're a beautiful thing together
Even when the weather is low

We find the rainbow
Up in the sky
You'd say don't you cry, it's all gonna be alright

(paus)

If we ever gone through a fight oh that would be bad
'Cause you know all of my secrets
But I know all of yours

We make hours turn into seconds together
The weight of the world feel like a feather
'Cause we're holding it right in our hands

You're my other half
You're what makes me me
What makes me smile
When I fall down and can't get back up, get back, get back up
On my feet

Without you here I am boring
Something inside you is triggering
It makes me myself
Makes me funny

You're a beautiful thing
We're a beautiful thing together
Even when the weather is low
You're a beautiful thing |1 |3d |
