[Vers 1]

Tired

Oh, sometimes I get tired on myself
And I feel like things won't be alright

Lonely

Oh, sometimes I get lonely in your company
'Cause we are the same, you and me

[Chorus]

What are we made of?

What have we come to believe?

Tell me, say how you feel

Are we made to hide how we feel inside?

If I cross that line, would you hold me?

What are we made of?

And if I cross that line, would you hold me?

[Vers 2]

Angry

Oh, sometimes I get angry with myself
But you won't even care as long as you're near

Hopeless

Oh, sometimes it get hopeless thinking you're not here
I want it to end, to be free

[Chorus]

What are we made of?

What have we come to believe?

Tell me, say how you feel

Are we made to hide how we feel inside?

If I cross that line, would you hold me?

What are we made of?

And if I cross that line, would you hold me?
